

## Multi Complex NLGI 2 | Lithium complex grease

### Property

- greater corrosion protection
- high stability and pressure resistance thanks to EP additives
- excellent thermal stability

### Application area

- universal applications
- especially suitable for chassis lubrication and wheel bearings
- continuous operation from -30°C to +140°C; Short period max. +220°C

### Note

- Technical data subject to change without notice. Please observe the vehicle or machine manufacturer's directions. Please refer to the safety data sheet for further information.
