

Petrol-Gas Treatment | Petrol-Gas additive

Property

- keeps fuel systems free of deposits and ensures absolutely clean valve faces and seats
- reduces fuel consumption
- regular use (every 1,000 km) conserves the power of new engines and improves the engine performance of used vehicles
- compatible with leaded or unleaded fuel

Application area

- recommended for petrol engines with and without turbo, catalytic converters or particle filters (GPF)
- suitable for carburettor and injection systems
- suitable for cars, motorcycles, boats, lawn mowers and small appliances

Dosage

- 1 x 375ml bottle is adequate for 40-60 litres of fuel. Add bottle contents to the fuel tank before filling.
