

Oil Stop Leak | Oil stop leak additive

Property

- reduces oil consumption
- regenerates and protects rubber and neoprene seals in oil systems

Application area

- use the additive for every oil change for optimum engine protection
- compatible with synthetic and mineral engine oils
- suitable for petrol and diesel engines with and without turbo, catalytic converters or particle filters (GPF/DPF)
- suitable for cars, trucks, motorcycles and boats

Dosage

- Add 1 x 375ml bottle to the engine oil (adequate for 3-6 litres). Add 6-10% for other volumes. Can remain in the system until the next oil change.

Typical properties

Eigenschaft	Einheit	Wert
Color	-	brown

Available packaging

375 mL bottle	Case 12 x 375 mL bottles
