

## Zinc Booster | Zinc booster for engine oil

### Property

- increases the zinc and phosphorous content in engine oil and pressure stability
- protects camshafts and valve tappets against wear

### Application area

- suitable for petrol and diesel engines without exhaust after-treatment systems such as catalytic converters and/or particle filters (GPF, DPF)
- use the additive for every oil change for optimum engine protection
- compatible with synthetic and mineral engine oils

### Dosage

- Add 10% (100 ml to 1 l) to the engine oil. Increases zinc and phosphorous content by approx. 1,000 ppm. Can remain in the system until the next oil change.

### Note

- Increased ZDDP content damages catalytic converters.
- Technical data subject to change without notice. Please observe the vehicle or machine manufacturer's directions. Please refer to the safety data sheet for further information.

### Typical properties

Eigenschaft	Einheit	Wert
Color	-	brown
Zinc content	ppm	12500

### Available packaging

375 mL bottle	Case 12 x 375 mL bottles
